Ixxat INpact CE Slave PCIe

Item number: 1.01.0320.20110

The Ixxat INpact CE Slave PCIe is a versatile and efficient solution to embedded systems or PCs to various industrial networks. This Common Ethernet variant offers preinstalled or downloadable Industrial Ethernet protocols, enabling flexible multi-network communication in a robust PCIe format.

Connects computers and embedded systems to industrial Ethernet networks

Features and benefits

Ideal for demanding requirements

Offers reliable data processing with deterministic real-time behavior, utilizing Anybus CompactCom NP40 technology to ensure efficient communication in complex and time-sensitive applications.

Common software interface

Easy switching between protocols through a standardized API, reducing the need for multiple product versions.

Use in industrial and standard PCs

PC interface board for fixed installation in desktop or industrial PCs, providing reliable connectivity .

Broad application range

Suitable for diverse applications including slave connection to networks, process data visualization, Human-Machine-Interfaces (HMI), data acquisition, and measurement and analysis.

Seamless PC operation under Windows and Linux

Powerful driver packages enable easy integration into PC-based Ixxat applications and customer-specific programs.

Multi-protocol support

Connectivity to all common Industrial Ethernet networks, ensuring seamless and reliable integration in diverse environments.

PCIe interface

Single-lane (1x) PCI Express interface supports high-speed data transmission, ideal for demanding industrial applications.

Overvoltage protection

Galvanic isolation safeguards against overvoltage and protects from potential electrical damage.

Easy configuration and maintenance

User-friendly configuration tools simplify setup and system updates, making it a flexible solution for long-term use in dynamic environments.

Ixxat INpact CE Slave PCIe

General

Net Weight (g)	52
Packed Width (mm)	14
Packed Height (mm)	4
Packed Depth (mm)	18
Packed Weight (g)	184
Isolation	1,500 Vrms
Configuration	The Ixxat INpact cards comes with a comprehensive C-API based driver package for Windows and Linux – enabling simple and rapid development of customer-specific applications. Their uniform application programming interface allows for quick protocol switching with minimal programming, enhancing flexibility and reducing development costs.
Content of Delivery	Ixxat INpact PC board, user manual, product CD with firmware for all supported industrial Ethernet protocols, available as free download: Windows, Linux and INtime driver software
Not Included (in delivery)	comprehensive and powerful driver and software packages are available as download
Packaging Material	Cardboard

Identification and Status

Product ID	1.01.0320.20110
Country of Origin	Germany
HS Code	8517620000
Export Control Classification Number (ECCN)	EAR99
Supply Risk Factor ERP	Used in Volume 01
Purchasing Multiple ERP	1

Physical Features

Connectors / Input / Output	2 x RJ45 connectors, 1 x PCI express (V1.1) single lane port (x1)

Certifications and Standards

ETIM Classification	EC000515
WEEE Category	IT and telecommunications equipment
