

SG-gateway

Item number: ASG2520-C

The Ixxat SG-gateway is used to integrate various industrial and energy-related devices into SCADA or cloud systems. It enables secure and reliable communication between energy systems, control rooms and industrial automation systems.

Features and benefits

General

Net Weight (g)	450
----------------	-----

Packed Weight (g)	565
-------------------	-----

Identification and Status

Product ID	ASG2520-C
------------	-----------

Country of Origin	Sweden
-------------------	--------

HS Code	8517699000
---------	------------

Export Control Classification Number (ECCN)	EAR99
---	-------

Certifications and Standards

ETIM Classification	EC001604
---------------------	----------
