

# Anybus Wireless Bridge II Ext. Antenna - CAN

Item number: AWB3016-B

The Anybus Wireless Bridge II CAN enable you to reduce the cost of cables, due to wear and tear, by using Bluetooth® or Wi-Fi communication. With our high-end point-to-point and multi-point technology you can easily establish a secure wireless connection that will help you to reduce unplanned downtime due to cable replacement.

Enable secure point-to-point cable replacement using Bluetooth or Wi-Fi

#### Features and benefits

No more unplanned downtime

Motion wears out communication cables, connectors, and slip rings leading to unplanned downtime and high cost.

✓ IT approved

Anybus Wireless technology enables you to establish a secure wireless connection without interfering with the running network.

Point -to-point applications

Ideal for establishing wireless connections to stationary yet moving machines such as cranes, turntables, or robots) or control cabinets in point-to-point setups.

PROFIsafe Compliance

The Anybus Wireless Bridge II meets PROFIsafe requirements, ensuring robust and secure wireless communication in industrial settings.

Insights into your network

The CLI (Command Line Interface) provides configuration and diagnostic capabilities, offering greater control and insight into your network.

Easy to get started

No prior knowledge required due to the simplicity of connecting the bridges. The mode button makes it easy to establish bridge-to-bridge connections.

Secure

Anybus Wireless solutions adhere to all essential international security regulations, providing you and your customer with a sense of security and peace of mind.

Perfect together!

Fully compatible with Anybus Wireless Bolt, a wireless product designed for multi-directional applications, enabling you to implement comprehensive wireless infrastructure.

Industrial design

Withstands harsh environments thanks to its IP66/67-rated enclosure and wide operating temperature range.

Advanced Configuration with AT Commands

The Anybus Wireless Bridge II supports AT commands, enabling fine-tuned control over modems, communication devices, and hardware components. Customize your network setup with precision.

General	
Net Width (mm)	68
Net Height (mm)	93
Net Depth (mm)	33
Net Weight (g)	105
Packed Weight (g)	185
Operating Temperature °C Min	-30
Operating Temperature °C Max	65
Storage Temperature °C Min	-40
Storage Temperature °C Max	85
Power Consumption (W)	1.7W
Content of Delivery	Quick start documentation Power supply not included
Mounting	Wall mount
Housing Materials	Plastic
Packaging Material	Cardboard
Warranty (years)	3

# Identification and Status

Product ID	AWB3016-B
Country of Origin	Sweden
HS Code	8517620000
Export Control Classification Number (ECCN)	5A992.c

## Physical Features

Connectors / Input / Output

1x M12 for Ethernet (4-pin, D-coded) 1x M12 for Power 5-pin, A-coded) RP-SMA antenna connector for external antenna

#### Wireless Features

Antenna Connector	RP-SMA
Antenna	Included
Frequencies & Bands	2.4 GHz Access Point: 1–11 2.4 GHz Client: 1–11 + 12 & 13 depending on regulatory domain scan 5 GHz Access Point: 36–48 (U-NII-1) 5 GHz Client: 36-48 + 100–116, 132–140, 120–128 depending on regulatory domain scan. (UNII-1, U-NII-2, U-NII-2e)

#### Wi-Fi Features

Operation Mode	Access Point, Client
RF Output Power	18 dBm EIRP (including max antenna gain 3 dBi)
Max No. Of Connections, Access Point	7
Security	WEP 64/128, WPA, WPA-PSK and WPA2, TKIP and AES/CCMP, LEAP, PEAP including MS-CHAP

#### Bluetooth Features

Operation Mode	Access Point, Client
RF Output Power	14 dBm EIRP (including max antenna gain 3 dBi)
Max No. Of Connections	7
Bluetooth Version	Classic Bluetooth v2.1
Security	Authentication & Authorization, Encryption & Data Protection, Privacy & Confidentiality, NIST Compliant, FIPS Approved

## Bluetooth Low Energy Features

Operation Mode (LE)	Access Point, Client
RF Output Power (LE)	10 dBm EIRP (including max antenna gain 3 dBi)
Max No. Of Connections (LE)	7
Bluetooth Version (LE)	Bluetooth v4.0
Security (LE)	AES-CCM cryptography
