Talk2m light Credit

Item number: TM50044

Talk2m light enhances remote connectivity, offering a global SLA, increased data capacity, and two concurrent VPN connections. Easily oversee all your sites from a single account.

Talk2m industrial cloud service for remote connectivity

Features and benefits

✓ **Connect to your machines remotely**

Enable secure troubleshooting with Talk2m's turnkey VPN connectivity to industrial equipment. Establish a secure internet connection for remote PLC programming & maintenance from your laptop/mobile.

✓ **Manage your connectivity & collaborate efficiently**

For faster, more efficient intervention, two people need to be able to connect simultaneously to the same machine.

✓ **Include Data Transfer Capacity**

Talk2m light plan includes up to 5 GB monthly VPN traffic and the sending of 7 million datapoints via datamailbox.

✓ **Get alarms and monitor performance**

Monitor equipment performance proactive thanks to alarm notifications. Easily access your HMI, PC, IP camera, and web pages remotely from any web browser.

✓ **Guaranteed first class service (SLA)**

Talk2m light's Global Service Level Agreement (SLA) insures 99,5% service availability for maximum business continuity. Talk2m infrastructure is constantly optimized to deliver maximum performance.
