

NetTool for Anybus-M DeviceNet Master Interface

Item number: 018021-B

With Anybus NetTool for DeviceNet, the configuration software for DeviceNet, you can define the DeviceNet configuration for your device. It's downloaded to the module via the HMS configuration software NetTool-DN or Rockwell's RSNetWorx. NetTool-DN can be connected via a configuration port on the module, from DeviceNet or the application interface.

Features and benefits

NetTool for Anybus-M DeviceNet Master Interface

General

Net Weight (g)	65
Packed Weight (g)	65
Warranty (years)	1

Identification and Status

Product ID	018021-B
Country of Origin	Sweden
HS Code	8517620000
Export Control Classification Number (ECCN)	EAR99
Supply Risk Factor ERP	Volume not defined yet

Use Case
