

KNX TP to ASCII IP & Serial Server Application

Item number: IN701KNX2500000

Integrate any KNX device or installation with an ASCII BMS or any ASCII IP or ASCII serial controller. This integration aims to make KNX communication objects and resources accessible from an ASCII-based control system or device as if they were a part of the ASCII system and vice versa.

KNX to ASCII IP & ASCII Serial - 250 points

Features and benefits
