CanEasy Standard

Item number: 1.04.0144.00001

CanEasy is a Windows-based analysis and test environment for CAN (FD), LIN and Automotive Ethernet. The tool simulates the bus traffic, has a high degree of automation, can be easily configured and extended with the help of plug-ins. CanEasy can be used throughout the development process, from testing to commissioning.

Enabling software-based residual bus simulation and analysis

Features and benefits

Comprehensive protocol support

Works with CAN, CAN FD, and LIN, for diverse testing scenarios.

Plug-in expansion

Allows for the creation of user plug-ins in any programming language, enhancing customization.

Effortless configuration

Drag-and-drop functionality combined with clear arrangements simplifies setup.

Diagnostic functions

Includes support for KWP2000 and XCP/CCP, for comprehensive diagnostics.

Hardware flexibility

Supports a wide range of hardware adapters, making it adaptable to various test setups.

CanEasy Standard

Identification and Status

Product ID	1.04.0144.00001
Country of Origin	Germany
HS Code	8517620000
Export Control Classification Number (ECCN)	EAR99

General

Net Weight (g)	25
Packed Width (mm)	23
Packed Height (mm)	5
Packed Depth (mm)	15
Packed Weight (g)	155

Certifications and Standards

ETIM Classification	EC000757
