

#### Anybus Communicator – Serial Master to PROFINET IO-Device

Item number: ABC3013-A

The Anybus Communicator Serial Master to PROFINET IO-Device enables you to connect any RS-232/485 device or equipment to PROFINET control systems. Anybus Communicators ensure reliable, secure, and high-speed data transfers between different industrial networks. Thanks to our intuitive web-based user interface, they're also incredibly easy to use.

A protocol converter that connects serial devices to PROFINET control systems

#### Features and benefits

Intuitive user interface

Use the intuitive web-based user interface to easily configure the Communicator via the drag-and-drop functionality or to analyze live data, export log files, and generate support packages.

High performance

Powered by the award-winning NP40 network processor and high-end components, the Communicator meets the constantly growing demand for more data to be transferred faster.

Instant data transfer

Instant data transfer lets you take advantage of high-speed industrial networks, as the Communicator provides hardware-accelerated endian conversion (byte swap), saving processing time on the PLC.

Convert standard and proprietary serial protocols

Convert standard serial protocols such as Modbus RTU and proprietary serial request/response or produce/consume-based protocols.

Brand Labeling

Pre-configure the Communicator and customize the hardware and user interface with your colors and logos.

Cybersecurity

The secure boot protects against malware, while a security switch locks configurations to prevent unauthorized changes. Ports used in production are disabled to add another layer of security.

Optimized hardware design

The Communicator has forward-facing ports and is designed for IP20 and DIN-rail mounting, enabling you to install it with ease, close to connected devices, thereby reducing wiring requirements.

5-year warranty

Thanks to carefully selected industrial components the Communicator operates reliably in harsh environments, ensuring uptime and longevity. Our confidence in quality is reflected in a 5-year warranty.

Instant diagnostics

The user interface displays real-time connection status and I/O data mapping for easy troubleshooting. Easily generate a support file containing all the necessary information.

✓ Life cycle management

HMS maintains every part of the Communicator, including network updates, throughout the product's lifecycle.

# Anybus Communicator – Serial Master to PROFINET IO-Device

| Identification and Status                      |                          |

### Physical Features

| Connectors / Input / Output | 1x 7-pin, 5.08 Phoenix plug connector, 2x RJ45, RJ45 Config port |
|-----------------------------|--|
| Push Buttons                | Factory reset  |
| DIP & Rotary Switches       | Security lock switch   |

### Modbus-RTU Features

| Modbus-RTU Mode                    | Client / Master   |
|------------------------------------|---|
| Modbus-RTU Supported Functionality | RS-232; RS485; Standard Modbus RTU Master; Custom Request / Responce commands; Custom Produce / Consume transactions; Trigger initated transactions; 7 or 8 data bit; None, Odd, Even Parity; 1 or 2 stop bit; Clear/Freeze |
| Modbus-RTU Functions<br>Supported  | 1, 2, 3, 4, 5, 6, 7, 8, 11, 12, 15, 16, 17, 20, 21, 22, 24  |
| Modbus-RTU Baud Rate               | 1200,1800,2400,4800,7200,9600,14400,19200,35700,38400,57600,115200,128000 bit/s   |
| Modbus-RTU Input Data Size         | 1500 bytes  |
| Modbus-RTU Output Data Size        | 1500 bytes  |

### PROFINET Features

| PROFINET Mode                    | Slave               |
|----------------------------------|---------------------|
| PROFINET Supported Functionality | RT; Daisy chaining; |
