

CHIP-SC143-LF

Item number: 00543258

The SC143 includes processor, RAM and FLASH memory, Ethernet and serial interfaces, a complete microcontroller interface with address/data bus, programmable chip selects and GPIO. This embedded platform comes with a preinstalled real-time multitasking operating system IPC@CHIP®-RTOS.

Embedded SoC web controller for the industrial control and communication market

Features and benefits

CHIP-SC143-LF

General

Net Weight (g)	3.3
----------------	-----

Packed Weight (g)	3.3
-------------------	-----

Identification and Status

Product ID	00543258
------------	----------

Country of Origin	Germany
-------------------	---------

HS Code	8542319000
---------	------------

Export Control Classification Number (ECCN)	EAR99
---	-------
