

## i4scada - Scheduler 7.500 Tags

Item number: 2006-007500

i4scada is a web-based SCADA & HMI software for operating and monitoring various machines and plants. It allows you to easily create modern process visualizations in individual design for various machines, systems and production plants.

*Web-based SCADA & HMI software for process visualization*

### Features and benefits

- ✓ **Low-code SCADA & HMI software**  
Create modern process visualizations (HTML5) with individual designs for operating and monitoring equipment. It has interfaces to all common PLC controls and works perfectly with Ewon gateways.
- ✓ **Collect data centrally**  
Collect data from your Ewon Flexy devices or other proprietary systems centrally and make it available to users everywhere.
- ✓ **Rely on strong security**  
Thanks to powerful rights management, control functions are carried out safely. Equipped with a security certificate (CERT standard), i4scada is suited for security-relevant networks & environments.
- ✓ **Expandable and scalable to your needs**  
i4scada is modularly expandable with add-ons, such as MessengerPro, SchedulerPro, IoTManager and cluster services.
- ✓ **Visualize & operate on any browser**  
Visualize and operate your machines and systems via tablet or smartphone. Web responsive design ensures optimal display of the visualization pages in all browsers, devices and operating system.
- ✓ **Easily create process visualizations**  
Effortlessly visualize your distributed plants and interconnect them with i4connected without additional effort in a cloud-based process visualization solution.
- ✓ **Make use of extensive libraries**  
Extensive libraries with more than 1000 controls for different applications and easy to create project templates minimize the engineering time - up to the fully automatic development of your application.

## General

<b>I4 License Version</b>	V3.9.0
---------------------------	--------

## Identification and Status

<b>Product ID</b>	2006-007500
<b>Country of Origin</b>	Germany
<b>HS Code</b>	Not Applicable
<b>Export Control Classification Number (ECCN)</b>	EAR99
