LonWorks TP/FT-10 to BACnet/IP & MS/TP Server Gateway

Item number: INBACLON1000000

Integrate any LON device or installation with a BACnet BMS or any BACnet/IP or BACnet MS/TP controller. This integration aims to make LON devices, their network variables (SNVT), and resources accessible from a BACnet-based control system or device as if they were a part of the BACnet system and vice versa.
