Mitsubishi Electric City Multi systems to KNX Application

Item number: IN770AIRXXSO000

The Mitsubishi Electric application has been specially designed to allow bidirectional control and monitoring of Mitsubishi Electric City Multi systems from a KNX installation. The solution allows the integration of up to 15 groups from a single interface.

Mitsubishi Electric to KNX - Up to 15 groups

Features and benefits

✓ **KNX standard datapoints (DPTs) support**

KNX standard datapoints (DPTs) are supported, guaranteeing a simple KNX device/system integration.

✓ **Automatic identification**

A scan function is available for automatic identification of the units present in the VRF system.

✓ **Individual indoor unit energy consumption signals**

Energy consumption signals from each indoor unit are available, so they can be checked individually.

✓ **Commissioning-friendly approach with Intesis MAPS**

Templates can be imported and reused as often as needed, significantly reducing commissioning time.

✓ **Direct access to the central controller**

Connection is simple, as the interface is directly connected to the central controller via Ethernet.

✓ **Outdoor unit signals**

Signals assigned to the outdoor unit are available to be used in the integration.

✓ **Datapoint support**

A wide range of monitoring and control datapoints is available.

✓ **Configuration tool and interface automatic updates**

Both the Intesis MAPS configuration tool and the interface's firmware can receive automatic updates.

Mitsubishi Electric City Multi systems to KNX Application

General

Net Weight (g)	240
Packed Width (mm)	106
Packed Height (mm)	58
Packed Depth (mm)	90
Packed Weight (g)	310
Operating Temperature °C Min	0
Operating Temperature °C Max	60
Capacity	Up to 15 groups.
Installation Conditions	This gateway is designed to be mounted inside an enclosure. If the unit is mounted outside an enclosure, precautions should always be taken to prevent electrostatic discharge to the unit. When working inside an enclosure (e.g., making adjustments, setting switches, etc.), typical anti-static precautions should always be followed before touching the unit.
AC Model Compatibility	List of compatible centralized controllers: G-50, G-50A, GB-50A, GB-50ADA, AB-150, AE-200, AE-50, AG-150A, EW-50, EB-50GU.
Content of Delivery	Intesis Gateway, Installation Manual, USB Configuration cable.
Not Included (in delivery)	Power supply not included.
Mounting	DIN rail mount (bracket included), Wall mount
Housing Materials	Plastic
Packaging Material	Cardboard
Warranty (years)	3 years

Identification and Status

Product ID	IN770AIRXXSO000_KNX_MIT
Country of Origin	Spain
HS Code	8517620000

Mitsubishi Electric City Multi systems to KNX Application

Identification and Status

|	
Export Control Classification Number (ECCN)	EAR99
Purchasing Multiple ERP	1

Physical Features

LED Indicators	Gateway and communication status.
Push Buttons	Factory reset. I-Am message (for BACnet only). Normal mode/programming mode switch (for KNX only).

Certifications and Standards

ETIM Classification	EC001604
WEEE Category	IT and telecommunications equipment

Mitsubishi Electric City Multi systems to KNX Application

Use Case

Integration example.

Use Intesis MAPS to change the protocol: BACnet, Modbus, KNX, or Home Automation
