KNX TP to ASCII IP & Serial Server

Item number: INASCKNX3K00000

Designed for the integration of any KNX device or installation with an ASCII BMS or any ASCII IP or ASCII serial controller. This integration aimed to make KNX communication objects and resources accessible from an ASCII-based control system or device as if they were a part of the ASCII system and vice versa. Please refer to the new product reference for further details.

Replaced by: IN701KNX3K00000
