

## i4bacnet

Item number: 3001-000100

i4bacnet is equipped with many features that allow you to create a complete BACnet BMS in no time. You can use it with all browsers and on all devices independent of the operating system.

*Web-based management control system for your building management system.*

## Features and benefits

- ✓ **Implement your BACnet-compliant BMS**  
i4bacnet is a web-based management and operations software for building management systems.
- ✓ **Professional look and feel**  
The i4bacnet HTML components with their professional look and feel are also available as SmartEditor extensions.
- ✓ **Transparent and homogeneous**  
The i4bacnet service hub connects any number of i4bacnet services with i4scada and i4connected to a transparent and homogeneous application - both on-premises and in the cloud.
- ✓ **Modern and web-based**  
i4bacnet is a modern, fully web-based and BACnet compliant management and operating unit software.
- ✓ **Automatic detection of BACnet devices**  
i4bacnet automatically detects all connected BACnet devices - even during runtime.
- ✓ **Suited for advanced applications**  
Thanks to the integration into the IIoT platform i4connected, you can quickly and easily implement applications such as energy management, condition monitoring or alarm management.

## General

<b>I4 License Version</b>	V1.33
---------------------------	-------

## Identification and Status

<b>Product ID</b>	3001-000100
<b>Country of Origin</b>	Germany
<b>HS Code</b>	Not Applicable
<b>Export Control Classification Number (ECCN)</b>	EAR99
