

Fujitsu VRF systems to Home Automation Application

Item number: IN775FGL00MO000

The Fujitsu application has been specially designed to allow bidirectional control and monitoring of Fujitsu VRF systems from a Home Automation system. The solution allows the integration of up to 64 indoor units from a single interface.

Fujitsu to Home Automation - Up to 64 Indoor Units

Features and benefits

- ✓ **IP Home Automation integration**
Thanks to our open ASCII protocol integration of any IP Home Automation System is easily achievable.
- ✓ **Direct Ethernet connection**
The interface is directly connected via Ethernet to the home's local IP network,
- ✓ **Outdoor unit signals**
Signals assigned to the outdoor unit are available to be used in the integration.
- ✓ **Driver compatibility**
A wide range of compatible drivers is available on the Intesis webpage.
- ✓ **Direct access to the outdoor unit**
Connection is simple, as the interface connects directly to the outdoor unit's communication bus.
- ✓ **Automatic identification**
A scan function is available for automatic identification of the units present in the VRF system.
- ✓ **Multiple TCP client support**
The interface supports up to 6 TCP clients (incoming sockets).
- ✓ **Commissioning-friendly approach with Intesis MAPS**
Templates can be imported and reused as often as needed, significantly reducing commissioning time.

Fujitsu VRF systems to Home Automation Application

General	
Net Width (mm)	106
Net Height (mm)	58
Net Depth (mm)	90
Net Weight (g)	375
Packed Width (mm)	130
Packed Height (mm)	85
Packed Depth (mm)	140
Packed Weight (g)	375
Operating Temperature °C Min	0
Operating Temperature °C Max	60
Input Voltage (V)	For DC: 12 .. 36 VDC ±10%, Max: 250 mA For AC: 24 VAC ±10 %, 50-60 Hz, Max: 127 mA Recommended voltage: 24 VDC, Max: 127 mA
Power Connector	3-pole
Capacity	Up to 64 indoor units and up to 12 outdoor units.
Installation Conditions	This gateway is designed to be mounted inside an enclosure. If the unit is mounted outside an enclosure, precautions should always be taken to prevent electrostatic discharge to the unit. When working inside an enclosure (e.g., making adjustments, setting switches, etc.), typical anti-static precautions should always be followed before touching the unit.
Content of Delivery	Intesis Gateway, Installation Manual, USB Configuration cable.
Not Included (in delivery)	Power supply not included.
Mounting	DIN rail mount (bracket included), Wall mount
Housing Materials	Plastic
Warranty (years)	3 years

Fujitsu VRF systems to Home Automation Application

General

Packaging Material	Cardboard
--------------------	-----------

Identification and Status

Product ID	IN775FGL00MO000_WMP_FGL
------------	-------------------------

Country of Origin	Spain
-------------------	-------

HS Code	8517620000
---------	------------

Export Control Classification Number (ECCN)	EAR99
---------------------------------------------	-------

Physical Features

Connectors / Input / Output	Power supply, EIA-485, KNX, Ethernet, HVAC port, Binary inputs (dry contact), Console port USB.
-----------------------------	-------------------------------------------------------------------------------------------------

LED Indicators	Gateway and communication status.
----------------	-----------------------------------

Push Buttons	Factory reset. I-Am message (for BACnet only). Normal mode/programming mode switch (for KNX only).
--------------	----------------------------------------------------------------------------------------------------

DIP & Rotary Switches	EIA-485 serial port configuration.
-----------------------	------------------------------------

Certifications and Standards

ETIM Classification	EC001604
---------------------	----------

WEEE Category	IT and telecommunications equipment
---------------	-------------------------------------

Use Case

Integration example.

Use Intesis MAPS to change the protocol: BACnet, Modbus, KNX, or Home Automation
