

Item number: FLB3209_00

This card boosts Ewon Flexy's connectivity with a 4G LTE modem for APAC region. Ideal for field applications lacking wired internet. Requires only a SIM card with data plan for Talk2m cloud. Safe VPN connectivity for SCADA applications without the hassle of provisioning a fixed IP address. Compatible with Ewon Flexy 10x, 20x series and 205.

Interchangeable extension card for enhanced connectivity

Features and benefits

Build your own Flexy gateway

Keep up with the evolution of communication technologies while protecting your investment in the device! The Ewon Flexy extension cards make this gateway highly modular and flexible.

General	
Net Width (mm)	22
