

CHIP-SC24-PIS

Item number: 00570592

The SC24 includes processor, RAM and FLASH memory, Ethernet and serial interfaces and GPIO on a DIL32 size. This embedded platform comes with a preinstalled real-time multitasking operating system IPC@CHIP®-RTOS and a license for the IEC 61850 stack PIS10.

An embedded SoC web controller with a DIL32 footprint for Smart Grid Applications

Features and benefits

General

Net Weight (g)	5
Packed Weight (g)	5

Identification and Status

Product ID	00570592
Country of Origin	Australia
HS Code	8542319000
Dual Usage	No
Export Control Classification Number (ECCN)	EAR99

Physical Features

Contains Battery	No
