

Protective Films for PM-50 3.5", Pack of 10

Item number: PMA000SP01600000

The protective films are a convenient way to protect the front of the various displays in dirty or abrasive environments such as foundries and concrete plants. The low-tack adhesive allows them to be applied directly to the overlay, while their large size provides protection for the keys as well as the screen. This is for the PM-50 3.5" device.
