

## R-C Snubber Inductive Load Suppressor

Item number: SNUB0000

The R-C Snubber is intended to suppress the “inductive kick” from motors, solenoids or relay coils. High energy noise spikes are generated whenever current is interrupted through an inductive load. These noise spikes may interfere with associated equipment causing erratic operation and may also accelerate relay contact wear. Applied across an inductive load, the R-C snubber suppresses the noise spikes and extends contact life.

### Features and benefits

# R-C Snubber Inductive Load Supressor

General	
Net Weight (g)	0.01
Packed Weight (g)	23.01
Warranty (years)	2
Identification and Status	
Product ID	SNUB0000
Country of Origin	Japan
HS Code	8536301090
Dual Usage	No
Export Control Classification Number (ECCN)	EAR99
Physical Features	
Contains Battery	No
Certifications and Standards	
Protection Class IP	IP54
