# **RedLin**<sup>®</sup> PAX® Strain Gage Panel Meter, AC-Powered

### Item number: PAXS0000

The AC-Powered PAX<sup>®</sup> Strain Gage Panel Meter helps you visualize analog and digital inputs with reliable panel meters that save you money and reduce downtime. When requirements change, simply upgrade your meter with field-installable, plug-and-play option cards to add communication, programming, I/O and setpoint capability.

## Features and benefits

### Recognized as an industrial standard

For 23 years, the PAX Meter has been voted North America's number 1 panel meter by Control Design's readers.

## Compact, easy to read display

Visualize critical performance data easily on a 5-digit 0.56" (14 mm) red sunlight readable LED display.

## Field-upgradable communications and programming cards 🗸

Add communications or programming capability with optional cards. Choose from RS232, RS485, Modbus<sup>®</sup>, PROFIBUS-DP and Crimson<sup>®</sup> programming.

## Field-upgradable setpoint cards

Add setpoint capability with optional cards. Choose from dual relay, quad relay, quad sinking and quad sourcing.

## Runs on AC power.

Uses 85-250 AC.

## Visualize any analog parameter

upgradable panel meter

Whatever parameter you need to monitor, the PAX series covers it. Keep track of strain gage inputs.

Visualize and control industrial processes with a field-

## Customizable units for evolving demands

When needs change, upgrade your meter instead of replacing it. A label kit and plug-and-play option cards add new capabilities. Choose from programming, communication, analog output and setpoint cards.

## Field-upgradable analog output cards

Install a single analog output card for 0 to 20 mA, 4 to 20 mA or 0 to 10 VDC

## Custom unit labels

Identify your display with one of 189 different engineering units available with the label kit accessory.
