RedLing[®] Graphite® RTD Analog Input Module

Item number: GMRTD600

The Graphite RTD analog input module easily connects any device or sensor to Graphite HMIs and can be used in conjunction with any Graphite modules. This high density temperature input module provides up to six isolated inputs. Ideal for data acquisition applications.

Features and benefits

Temperature input control and monitoring

Six single-ended RTD analog inputs. 2 or 3-wire type. Includes NIST conformity, A/D conversion errors, temperature coefficient and linearization conformity. Inputs are isolated from each other and the power supply.

Flexible configuration

Once programmed, the module can operate/control independent of the Graphite device as long as power is applied. Use in conjunction with any Graphite series module.

Easy to connect and remove

Modules connect and communicate via proprietary USB connection to the various Graphite devices.

LED status and alarm indicators

Status LED displays the state of the module, including startup routine and error states. Alarm LED indicates the presence of an input fault condition.

Module powered by Graphite[®] HMI

Power is supplied by the Graphite[®] host device. Maximum power: 1.4 W.

Monitor and control remote devices easily and intuitively with Graphite[®] data acquisition modules.

High speed and high performing

Sample time of 67-400 msec depending on enabled inputs. Temperature coefficient of 0.01%/°C. Unused inputs can be disabled to increase overal reading rate.

Non-volatile memory

Retain all programmable parameters.

Simple setup with Crimson[®] configuration software

Configure and perform routine re-calibrations with Windows[®] compatible Crimson[®] configuration software. The user-friendly graphical interface makes programming quick and easy.

Designed for harsh environments

Durable metal construction. Suitable for hazardous environments with UL Class I, Division 2 listing and CE, ATEX/UKEX and IECEx approved. ABS Type approval for shipboard applications. Operating temperature of -40 °C to 75 °C

Graphite® RTD Analog Input Module

General	
Net Weight (g)	0.01
Packed Width (mm)	149.225
Packed Height (mm)	79.375
Packed Depth (mm)	168.275
Packed Weight (g)	227.01
Relative Humidity	85% max relative humidity, non-condensing
Power Consumption (W)	0
Maximum Installation Altitude (m)	2000
Mounting	Wall mount
Housing Materials	Metal Housing
Packaging Material	Cardboard
Warranty (years)	2

Identification and Status		
Product ID	GMRTD600	
Country of Origin	United States of America (the)	
HS Code	8537109199	
Dual Usage	No	
Export Control Classification Number (ECCN)	EAR99	
Physical Features		
Connectors / Input / Output	Terminal	
SD Card Slot	No	

Graphite® RTD Analog Input Module

Physical Features

Flash Drive	No
Contains Battery	No

Certifications and Standards

RoHS Compliant	Yes
CE	Yes
FCC	No
UKCA	No
UL	Yes
ATEX	Yes
DNV	No
КС	No
