## 30Watt, 24 VDC Power Supply

Item number: PSDR030W

The compact PSDR power supply, 30 watt, is an industrial input voltage supply with primary switched-mode regulator technology and low output ripple. The supply has an adjustable output voltages from 24 to 28 VDC and the outputs are electronically protected against overloads and short circuits.

## Features and benefits

# 30Watt, 24 VDC Power Supply

General	
Net Weight (g)	454
Packed Weight (g)	454
Warranty (years)	2
Identification and Status	
Product ID	PSDR030W
Country of Origin	China
HS Code	8504408390
Dual Usage	No
Physical Features	
Contains Battery	No
