

CanEasy professional

Item number: 1.04.0144.00000

CanEasy is a Windows-based analysis and test environment for CAN (FD), LIN and Automotive Ethernet. The tool simulates the bus traffic, has a high degree of automation, can be easily configured and extended with the help of plug-ins. CanEasy can be used throughout the development process, from testing to commissioning.

Enabling software-based residual bus simulation and analysis

Features and benefits

- | | |
|--|--|
| <ul style="list-style-type: none">✓ Comprehensive protocol support
Works with CAN, CAN FD, LIN, and Automotive Ethernet for diverse testing scenarios.✓ Easy user interface
Features attractive graphical RichPanels and database editors for a user-friendly experience.✓ Hardware flexibility
Supports a wide range of hardware adapters, making it adaptable to various test setups. | <ul style="list-style-type: none">✓ Diagnostic functions
Includes support for UDS, KWP2000, XCP/CCP, and error memory display for comprehensive diagnostics.✓ Plug-in expansion
Allows for the creation of user plug-ins in any programming language, enhancing customization.✓ Effortless configuration
Drag-and-drop functionality combined with clear arrangements simplifies setup. |

General

Net Weight (g)	25
Packed Width (mm)	23
Packed Height (mm)	5
Packed Depth (mm)	15
Packed Weight (g)	155

Identification and Status

Product ID	1.04.0144.00000
Country of Origin	Germany
HS Code	8517620000
Dual Usage	No

Physical Features

Contains Battery	No
