

Ixxat D-Sub 9 connector with CAN termination

Item number: 1.04.0075.03000

The Ixxat Sub-D9 connector with CAN termination ensures proper termination of CAN and CAN FD buses. It features a D-Sub 9 male to female gender changer design and is used when a CAN node lacks internal termination or if no CAN node is connected at the end of the CAN bus. Per ISO 11898-2, high-speed CAN systems require end resistors.

Termination for CAN/CAN FD networks (D-Sub 9 plug)

Features and benefits

✓ Optimal signal integrity

Integrates a 120 Ohm resistor, ensuring proper CAN/CAN FD bus termination. The resistor is placed between pin 2 (CAN-L) and pin 7 (CAN-H).

✓ Technical data overview

Insulator: PBT glass fiber reinforced / contact: brass, gold plated over nickel / shell: tin plated / insulator resistance: 500 MOhm min. at 500 V DC / temperature range: -55 °C to 105 °C

Ixxat D-Sub 9 connector with CAN termination

General

Net Weight (g)	12
Packed Weight (g)	12

Identification and Status

Product ID	1.04.0075.03000
Country of Origin	China
HS Code	8536901000
Dual Usage	No

Physical Features

Contains Battery	No
------------------	----

Certifications and Standards

WEEE Category	IT and telecommunications equipment
---------------	-------------------------------------
