

CHIP-SC145-0001 RTOS- LNX Variant

Item number: ABE01000-B

The SC145 is characterized by its user-friendly software and interface features. All important and proven hardware functions and interfaces of the SC1x3 are also available on the SC145, along with many additional functions. This embedded platform comes with a preinstalled operating system IPC@CHIP[®]-RTOS.

*Embedded SoC controller for industrial control applications
and IoT communication*

Features and benefits

CHIP-SC145-0001 RTOS-LNX Variant

General

Net Weight (g)	2
Packed Weight (g)	2

Identification and Status

Product ID	ABE01000-B
Country of Origin	Sweden
HS Code	8542319000
Dual Usage	No

Physical Features

Contains Battery	No
