

CanEasy Standard

Item number: 1.04.0144.00001

CanEasy is a Windows-based analysis and test environment for CAN (FD), LIN and Automotive Ethernet. The tool simulates the bus traffic, has a high degree of automation, can be easily configured and extended with the help of plug-ins. CanEasy can be used throughout the development process, from testing to commissioning.

Enabling software-based residual bus simulation and analysis

Features and benefits

- ✓ **Comprehensive protocol support**
Works with CAN, CAN FD, and LIN, for diverse testing scenarios.
- ✓ **Plug-in expansion**
Allows for the creation of user plug-ins in any programming language, enhancing customization.
- ✓ **Effortless configuration**
Drag-and-drop functionality combined with clear arrangements simplifies setup.
- ✓ **Diagnostic functions**
Includes support for KWP2000 and XCP/CCP, for comprehensive diagnostics.
- ✓ **Hardware flexibility**
Supports a wide range of hardware adapters, making it adaptable to various test setups.

General

Net Weight (g)	25
Packed Width (mm)	23
Packed Height (mm)	5
Packed Depth (mm)	15
Packed Weight (g)	155

Identification and Status

Product ID	1.04.0144.00001
Country of Origin	Germany
HS Code	8517620000
Dual Usage	No

Physical Features

Contains Battery	No
